

As a result of the Greenhouse Gas Emissions Inventory Verification, EQA declares that the organization's carbon footprint:

ELABORADOS CÁRNICOS MEDINA, S.A.U.

is **5,335.49 tons** of CO₂ equivalent (location-based approach) and **11,085.66 tons** of CO₂ equivalent (market-based approach), in accordance with the Technical Annex of the EQA Verification Statement, dated 05/22/2025.

Standard	GHG Protocol
Address	Pol. Ind. El Rincón, s/n, sector 2, block 5. 46360 Buñol (Valencia)
Activity	Slaughter and butchering of cattle. Cutting and packaging of fresh and frozen meats. Technological process of freezing and refrigerated storage. Preparation and packaging of meat preparations and products
Calculation period	01/01/2024-31/12/2024
Scope 1	3,023.87 tons of CO ₂ eq
[Scope 2/ Location-based approach]	2,311.63 tons of CO ₂ eq
[Scope 2/ Market Focus]	8,061.80 tons of CO ₂ eq

Technical Annex to Certificate No. 13015-HC GHG Protocol

TECHNICAL ANNEX OF THE VERIFICATION STATEMENT OF THE ORGANIZATION'S GREENHOUSE GAS EMISSIONS INVENTORY:

ELABORADOS CÁRNICOS MEDINA, S.A.U.

ELABORADOS CÁRNICOS MEDINA, S.A.U. has commissioned European Quality Assurance Spain, S.L., hereinafter EQA, to verify the Greenhouse Gas Emissions Inventory for the period from 01/01/24 to 31/12/24, for its activities of: *Cattle slaughtering and* butchering. Cutting and packaging of fresh and frozen meats. Technological process of freezing and refrigerated storage. Preparation and packaging of meat preparations and products, included in the Carbon Footprint Report *ECM_Carbon Footprint Report and Reduction Plan_R4* of the organization *ELABORADOS CARNICOS MEDINA, S.A.U.*, dated 05/22/2025, issued by the organization.

Organization:
*ELABORADOS CÁRNICOS
MEDINA, S.A.U..*

Registered Office:
*Pol. Ind. El Rincón, s/n, sector 2, block 5.
46360 Buñol (Valencia)*

The Management of *ELABORADOS CARNICOS MEDINA, S.A.U.* is responsible for managing activity data flow activities, as well as maintaining the necessary records to calculate greenhouse gas emissions and subsequent reporting.

Reference Standard: *GHG Protocol*

Type of Carbon Footprint: *ORGANIZATION*

Objective: The objective of the verification is to ensure that the information reported by the organization in the Carbon Footprint Report *ECM_Carbon Footprint Report* and *Reduction Plan_R4* of the organization *ELABORADOS CARNICOS MEDINA, S.A.U.*, dated 22/05/2025, is accurate, complete, transparent, and free of errors or omissions.

Number 13015-HC

Page 2 of 4

Scope of Verification: Slaughter and cutting of cattle. Cutting and packaging of fresh and frozen meats. Technological process of freezing and refrigerated storage. Preparation and packaging of meat preparations and products, at the facilities located in:

- Pol. Ind. El Rincón, s/n, sector 2, block 5. 46360 Buñol (Valencia) The

target verification activities are established in 2 *scopes*:

Scope 1: Direct emissions and removals of GHG

- Direct emissions from stationary combustion (natural gas and propane).
- Direct emissions from industrial mobile machinery (diesel B and lubricants).
- Direct emissions from mobile combustion (B7, E5, 100% renewable HVO, and AdBlue).
- Fugitive emissions (liquid CO₂ in mixers, refrigerants, fire extinguishers, and transformation centers).

Scope 2 Indirect GHG emissions from imported energy.

- Electric consumption in buildings

Verification period: 01/01/24 – 31/12/24

Approach focused on consolidating GHG emissions: Operational control *approach*

Base year: 2024

Emissions reduction plan

During the verification process, the Reduction Plan for the period 01/01/2024-31/12/2024 of the organization *ELABORADOS CARNICOS MEDINA, S.A.U.*, dated 22/05/2025, is reviewed.

Number 13015-HC

Verification Criteria

For the completion of the Greenhouse Gas Emissions Inventory Verification, criteria and information contained in the **GHG Protocol** standard and the UNE-EN-ISO 14064-3:2019 standard have been taken into account.

Importance

The required importance in the verification has been 5%, meaning that only those omissions or errors that represent, in relation to the total declared emissions, a difference greater than 5% have been considered as material discrepancies.

Conclusion

Taking into account all the information gathered in the verification process, EQA can provide assurance on the Carbon Footprint Report ECM_Carbon Footprint Report and Reduction Plan_R4 of the organization **ELABORADOS CARNICOS MEDINA, S.A.U.** from 05/22/2025, for the period subject to verification, that there is no evidence to suggest that the reported emissions are not a true representation of the GHG emissions from its activities:

Emissions	t CO ₂ e equivalents
Scope 1-----	13.023,87
Scope 2 (location-based approach)-----	2.311,63
Scope 2 (market-based approach) -----	8,061.80
Total (location focus) -----	5,335.49
Total (market focus)-----	11,085.66
